**Who We Are Looking For**

We are looking for two experienced bicycle mechanics who are passionate about cycling, enjoy working with people and take pride in delivering high-quality repairs.

**Required qualifications:**

- Professional experience in bicycle servicing and repairs.
- Strong knowledge of modern bicycle components, including Shimano, SRAM and electronic shifting systems.
- Ability to diagnose and solve technical problems independently.
- Experience using digital workshop and diagnostic tools.
- Good communication skills in English.
- Reliable, organised and quality-focused.

**Additional experience is an advantage:**

- Working with racing teams or competitive cyclists.
- Suspension servicing and maintenance.
- Wheel building and truing.
- Electric bicycle systems.
- Carbon bicycle assembly and maintenance.
- Experience with Canyon or other internationally recognised bicycle brands.

We especially value people who share our passion for cycling, understand the cycling community and enjoy helping riders of all levels.
Applicants must have the legal right to work in Norway before starting employment.

**Your Responsibilities**

- Perform professional bicycle servicing, maintenance and repairs.
- Diagnose and resolve mechanical and electronic issues.
- Service hydraulic brakes, drivetrains and electronic shifting systems.
- Assemble, inspect and prepare road, gravel, mountain and electric bicycles.
- Use digital diagnostic tools and workshop systems.

- Carry out safety inspections and quality checks.
- Communicate professionally with customers and colleagues.
- Help maintain an organised and efficient workshop.

**What We Offer**

- Two full-time temporary positions from 1 April to 30 September 2027.
- Competitive salary based on qualifications and experience, in accordance with Norwegian employment regulations.
- A modern, fully equipped bicycle workshop and official Canyon Service & Test Center.
- A friendly, international working environment with a shared passion for cycling.
- Opportunities for professional development and technical training.
- Employee discounts on cycling equipment and services.
- Assistance with finding suitable accommodation in the Oslo/Bærum area.

Accommodation costs are normally the employee's responsibility unless otherwise agreed.
At Ride On, we believe in teamwork, quality and creating great cycling experiences together.
