

Quality Control Engineers - PFA Activities- Lolland Site (5 vacancies)

FLC is looking for 5 Quality Control Engineers to PFA Activities on Lolland site to be part of the team on the world's longest immersed tunnel.

Who is FLC?

Femern Link Contractors is the joint venture responsible for the design and construction of the immersed tunnel, tunnel portals and ramps (Femern Belt Tunnel). Our joint venture consists of nine international construction companies with individual experience in large infrastructure projects. Together, we are committed to working together to deliver a state-of-the-art immersed tunnel, portals, and ramps, delivered on time and safely, in a sustainable and ethical manner.

Main responsibilities:

As a Quality Control Engineer – PFA Activities – Lolland Site, you will ensure the External Control as per the Project IMS System and the Quality Plan Objectives for the Works related:

- Ensure ITPs are correctly implemented on Site, with records (Execution Tracing Files: ETF) filled and signed.
- Carry out Spot Checking on Calibration of Equipment used for Works.
- Follow Rules and Guidelines established by HS&WE Manager and Production Team.
- Carry out random inspections to check that IPTs are correctly implemented on Site by Production Team.
- Follow Rules and Guidelines established by Environmental Manager and Production Team.

Personal qualifications

- A degree in Civil Engineering
- + 3 years' experience as Quality Inspector on Concrete and Reinforcing Steel Works
- Knowledge of Euro Norms and Standards dealing with Concrete and Reinforcing Steel
- Knowledge of Testing of Materials for Concrete
- Good interpersonal, organization skills and ability to work independently are essential
- Ability to manage the relationship with key stakeholders
- Experience on large international infrastructure projects is appreciated
- High standard of written and spoken English (Danish a plus)

What we expect from you?

FLC considers transparent management structures, short decision-making channels, and a team-oriented environment to be extremely important. Our staff is expected to set themselves targets, achieve them independently, and take responsibility for their actions – irrespective of their position in the company.

Conditions of employment:

You will be based on construction site in Rødbyhavn.

You will experience an organisation that is dynamically altering in accordance with the project progress, with a challenging, diverse and enriching working day.

Salary: Your remuneration package will be according to your qualifications and the Danish Salaried Employees Act (Funktionærloven). You will be offered pension, health insurance and other staff benefits.

Permanent position, full time and general terms.
