

Experienced project manager for airport projects in Greenland

Are you an experienced Project Engineer in the field of rock drilling and blasting? In addition, would you like to help us build airports in Greenland?

Are you an experienced Project Engineer in the field of rock drilling and blasting? In addition, would you like to help us build airports in Greenland?

During the next 3 years, Munck Civil Engineering are building airports in Nuuk and Ilulissat. For these projects, we are now looking to recruit a skilled and experienced Project Engineer.

We offer:

- An unique opportunity for working and living in Greenland
- Professional and personal experience with construction of infrastructure in Greenland
- Attractive salary and terms of employment
- Board and lodging in our camp near the construction site

We are looking for a project manager with:

- A technical background as an engineer or equivalent
- Several years of experience with management of drilling and blasting projects
- Knowledge of drilling and blasting in rocks in arctic climates
- Strong competencies for project management, including coordination of activities, finance, IT, employee management, communication, ect.
- High standards for quality and safety at work

Interested?

For more information, please contact Senior Project manager Rasmus Schmidt-Petersen: GL +299 292 809 / DK +45 5167 7719
